VOLUME 21 • NUMBER 0 • JANUARY, 1955

Salon quality comes *easier* when you enlarge on new Ansco **jet** Paper

For low key studies—or *any* picture material that shows to best advantage in prints having jet-black shadows, good middle tones, and sparkling highlight detail—you'll find Ansco JET a wonderful new enlarging paper.

New Ansco JET comes in four contrast grades to match any printable negative, and the clear-cut separation between grades makes the proper selection easier. High printing speed, and generous exposure-development latitude, help make JET an exceptionally easy paper to use. Ask for Ansco JET at photo stores—in Glossy (Gl), Velvet (V) or Kashmir (K) surfaces.

Make Ansco Superpan Press Your First Choice in Film

No other film you can choose gives quite the same equally pleasing results with daylight, tungsten, fluorescent, flash or speedlight illumination that you get with Ansco Superpan Press. It's the film with the extra speed you want to make all kinds of pictures (action included) even under difficult light conditions. Ansco Superpan Press is available in rolls, film packs and sheet film to fit your favorite camera. Get some today—and see how much better your pictures can be.

DIRECTORY OF MEMBERSHIP

This list of members was prepared by PSA Headquarters as of January 1, 1955. Names and addresses are followed by a code indicating LIFE and CORNERSTONE MEMBERS, Divisional affiliation and month and year of joining PSA. When no Division letters appear, it means that Headquarters has no record of affiliation with a Division. A geographical index will be found at the back.

Every effort has been made to insure the accuracy of the listings, but your cooperation in checking your own name, address, and Division is earnestly requested. Errors can be corrected only with your help. Communications should be addressed to PSA Headquarters, 2005 Walnut Street, Philadelphia 3, Pennsylvania.

The code used is as follows:

†—Cornerstone Member	N—Nature Division
††—Life Member	J—Photo-Journalism Division
ff—Travel Aid	P—Pictorial Division
C—Color Division	S—Stereo Division
M—Motion Picture Division	T—Technical Division

Because of space limitations, all miscellaneous memberships, subscriptions, etc., have been omitted.

Extra copies of this Directory Section, separately stapled, may be purchased by members only from PSA Headquarters, 2005 Walnut St., Philadelphia 3, Penna., at $1.00 payable with order.

Use of this Directory for sales solicitation is made without the approval or sanction either of PSA or of PSA JOURNAL. PSA Members are reminded that it is impossible to provide the convenience of a membership list without risking its use for sales or other commercial purposes. Such use constitutes no endorsement by PSA or by PSA JOURNAL of products or services thereby offered.

PSA Honors and Requirements

STATEMENT OF POLICIES

"PSA Honors are awarded in recognition of contributions to the advancement of the art and science of photography. Such contributions take many forms which may generally be divided into those resulting principally from proficiency and achievement and those primarily of a service nature. Since personal achievement alone does not necessarily contribute to the advancement of photography, it does not qualify the candidate unless combined with elements of service. (See the Fellowship and the Associateship.) On the other hand, service may contribute substantially to the advancement of photography even though the candidate's proficiency in the use of the medium may be limited. (See the Honorary Membership and the Associateship, category II.) PSA Honors are not degrees of membership nor recognition of proficiency alone."

THE HONORARY FELLOWSHIP is the highest Honor awarded by the Society. It is awarded only for unique or outstanding contributions of major importance to photography. The unanimous approval of the Honors Committee and the unanimous approval of the Board is required and the number of living Honorary Fellows is limited to 25. Candidates need not be members of the Society.

THE HONORARY MEMBERSHIP is awarded for outstanding service to photography, particularly through organizational or similar work. Proficiency in the use of the photographic medium is not a requirement. It may be recommended by a three-fourths vote of the Honors Committee and requires a three-fourths vote of the Board for approval. Candidates need not be members of the Society.

THE FELLOWSHIP is awarded for outstanding contributions to the advancement of photography involving a high degree of proficiency and achievement combined with such elements of service as the dissemination of acquired knowledge by lecturing, judging, instructing, publishing of articles, papers, etc. Personal achievement alone does not qualify a candidate for this Honor. The Fellowship may be awarded by a three-fourths vote of the Honors Committee, to any qualified person who has been a member of the Society for at least three years prior to the date of the application. Except in unusual and especially meritorious cases, candidates should be Associates and have been active in the field for at least ten years.

THE ASSOCIATESHIP is awarded for material contributions to the advancement of photography, whether resulting primarily from proficiency and achievement or service alone. As in the case of the Fellowship, achievement must be combined with elements of service. The Associateship may be awarded by a majority vote of the Honors Committee to any person

INSTRUCTIONS TO THE PROPOSER OF HONORS

Before initiating an application for Honors on behalf of your candidate, consider seriously the responsibility you are assuming. Read carefully the contents of the application form, giving special attention to the statement of policy and the general statement of the qualifications required for the Honor requested. Only if you are convinced that the work and achievements of the candidate constitute a contribution to photography and qualify him for the Honor, should you proceed. To propose a candidate under any other circumstances is to do him a disservice. But your responsibility does not end here. You must present the facts in a clear and precise manner. Do not use flowery language nor resort to exaggeration, both of which lead to the suspicion of insincerity. First complete accurately the statement of the candidate's record. Then prepare your general statement in the form of a brief summary, stressing the phases of his work which, in your opinion, qualify him for the Honor.

Try to give the Honors Committee a clear picture of the candidate's qualifications in the space provided. Attached material should not be necessary and is not generally circulated to the members of the Honors Committee, except in the case of applications for the Honorary Fellowship. Omit such evidence as prints, reprints of articles, scrap books, clippings, etc., unless they are requested.

It is also your duty to secure two endorsers who are members of PSA in good standing and who have a personal knowledge of the work and achievements of the candidate. Explain to them that they will be required to make an independent statement on a form which they will receive from PSA Headquarters, and make sure that they are willing to do so.

who has been a member of the Society for at least one year prior to the date of the application. Except in unusual and especially meritorious cases, candidates should have been active in the field for at least five years.

Examples of Qualifications In The Various Fields of Photography

1—MONOCHROME PICTORIAL (Including portraiture)
Since pictorial photography is closely allied with exhibiting and competitions, considerable weight will be given to the candidate's exhibition and competition record, awards for pictorial merit, promotion of salons and exhibitions, the judging of exhibitions, etc.

2—COLOR
As in the case of monochrome pictorial photography, weight will be given to the candidate's exhibition record, organization and promotion of salons and exhibitions, judging, etc. Mastery of creative design, composition and color harmony are important qualifications. Proficiency and achievement in the use of color photography in fields other than pictorial may be considered under this category or, if incidental, may be considered collateral in the field of major endeavor.

3—MOTION PICTURE
Exceptional ability in directing, producing, processing, editing, titling films and mastery of techniques for producing effects, accompanying sound, etc. will be considered, as will any other contributions to the art and science of motion picture photography.

4—PHOTO-JOURNALISM, Documentary and Other Reportorial Photography
Ability in this area as indicated by the publication of candidate's work in newspapers, magazines, trade journals, house organs, etc., as well as illustrations for books or publicity and public relations, will be considered.

5—NATURE
Weight will be given to the candidate's exhibition record, etc., but the inclusion of his work in museums of natural history, and the use of his pictures as illustrations for books, articles and lectures on nature as well as his scientific background are considered important.

6—PHOTOGRAPHIC RESEARCH and Development of Processes and Apparatus
The degree of responsibility for the initiating, directing and results of the research or development is considered the important factor in evaluating his qualifications in this category. This field includes the photographic aspects of photomechanical work. Published reports of work, listed as to title, date and place of publication as well as patents issued are considered indicative of the candidate's accomplishments.

7—SCIENTIFIC AND TECHNICAL PHOTOGRAPHY
In this category achievements in the application of specialized photography to scientific, industrial and commercial fields will be considered. This includes photomicrography, medical photography, spectrography, astronomy, X-ray, high-speed photography and aerial photography. New applications of photography to the solution of problems are important. Weight will be given to papers published and patents granted.

8—PROFESSIONAL PHOTOGRAPHY
In this category achievements in professional work in creative, commercial, illustrative and portrait photography and the promotional or advertising type of industrial photography will be considered.

9—GRAPHIC ARTS
In this field creative work in the application of the photographic aspects of photomechanical reproduction by any process will be considered.

10—EDUCATION
Consideration will be given to the organization, supervision and teaching of photographic classes; the writing, publishing or editing of photographic publications; and similar educational activities.

11—ORGANIZATION AND PROMOTION of Photographic Activities
The organization and direction of camera clubs, councils, exhibitions and other group activities and the dissemination of knowledge through lectures and writing for or editing local publications, arranging programs, etc., as well as noteworthy service to PSA will be considered as qualifications for the Associateship. Outstanding or unique service of a similar nature are qualifications for the Honorary Membership. Such service is also a collateral qualification for the Fellowship, which is awarded primarily for contributions to the advancement of photography through proficiency and achievement in the use of the medium.
THE HONORS COMMITTEE MAY IN ITS DISCRETION WAIVE ANY OF THE SPECIFIC REQUIREMENTS WHEN SUCH WAIVER IS NOT INCONSISTENT WITH THE OBJECTIVES OF THE SOCIETY AND ITS POLICIES. IT MAY ALSO AWARD HONORS OTHER THAN THOSE REQUESTED WHEN IT DEEMS THEM MORE APPROPRIATE TO THE QUALIFICATIONS OF THE CANDIDATE.

The Statement of Policies above is based on a report of the 1952-53 Honors Committee. It is basically true, but bear in mind that each year the Honors Committee revises the rules for the following year to overcome inequities and maintain the high standards set for these awards. It is possible you may encounter minor deviations in the latest instructions from the Honors Committee in which case the instructions prevail.
